

Dwyer Case History

Project Name: Crossroads Community Church

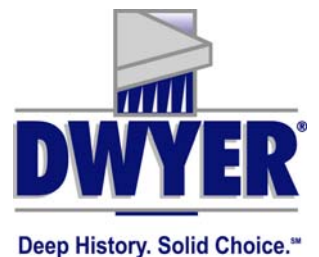

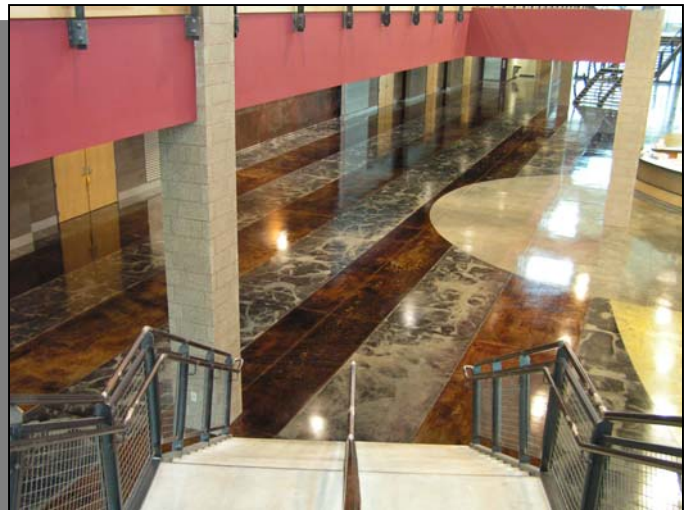

General Contractor: Turner Construction

Project Type: Design, Layout, Patterned Saw Cuts, Acid Staining, Concrete Sealing, Cement Coatings

Location: Cincinnati, OH

Project Description:

Dwyer installed a decorative and durable flooring system onto the new addition of the church. This designer floor shows how Dwyer can take a concrete surface from functional to fashionable. This project was completed in December 2005 taking only 3 weeks to finish.

Decorative Flooring System
