

Dwyer Case History

Project Name: L&N Bridge
(Purple People Bridge)

Owner: City of Cincinnati

General Contractor: Prus Construction

Engineer: KZF Design

Project Type: Helix Tension / Tiedown Anchors

Location: Cincinnati, OH

Project Description:

Dwyer designed and installed pre-engineered helix piers to hold down the footings, and resist the wind loads on the new structure at the entrance of the bridge on the Cincinnati side.

Helix Tension, Tiedown Anchors
